

**Another victory for Matthieu in Brazil for the second round.**

Returning from Donington, we put Matthieu at airport Charles de Gaulle, where he flew to the second race of the Brazilian Championship in Cascavel.

After a first sunny day, it rained on Saturday and Sunday there were still moisture on track. Almost perfect weekend with Matthieu's domination in practises except Q2 Superpole where riders determine their place on starting grid. Matthieu realized the fourth time, team wanted to try new settings who were no better.

In the race, he took the lead in first lap, and Pierluigi followed him as his shadow half the race but Matthieu with fast laps will increase a secure gap at the end of race.

Matthew is leading championship with 22 points over Miguel Praia rider of our friends from Moto Center in Rio de Janeiro.

Here is his new helmet LS2 **FRANCO**

**BRAZILIAN**
