

Moto 1000 GP: Curitiba

Fourth success for Matthieu Lussiana à Curitiba in Moto 1000GP

Perfect week -end for Matthieu, who increased his lead on Argentin Diego Pierluigi in championship. After the pole position, the track record, the fastest race lap and victory, it was hard to do better.

Alex Barros Racing Team was able to find in first practice session right settings, allowing Matthieu to concentrate on his riding, to make a race simulation and avoid traps of this dangerous track (some bumps placed in wrong places can lead to crash).

This is particularly what happened to Diego Pierluigi rider who crashed twice, in qualify and race, who is now at 48 points of Matthieu.

A week of rest and Matthieu will go to Spain in Jerez de la Frontera for testing day before Superstock 1000 race scheduled for September 20th.
